Professional Summary

Data Analyst with hands-on experience in data cleaning, analysis, and visualization using tools like Python, Excel, SQL and Power Bi. Skilled in extracting insights from complex datasets and building interactive dashboards for decision-making. Applied data analytics in real-world domains such as Retail, Finance, and healthcare.

Experience

ASDR Infotech   **Jan 2025 – Present**
Data Analyst Intern   Pune, India
  – Analyzed large datasets (10,000+ records) across diverse client projects to identify trends, patterns, and key insights.
  – Translated business requirements into data queries and reports, supporting data-driven decision-making.
  – Created visualizations and summaries that improved client understanding and operational efficiency.

One IT   **Jun 2024 – Sep 2024**
Data Analyst Intern   Gadhinglaj, India
  – Analyzed business and customer data using SQL to generate insights and support decision-making
  – Developed interactive dashboards in Power BI to track key metrics like sales performance and customer retention
  – Performed data validation and exploratory data analysis in Excel to support weekly and monthly reporting

Projects

Music Store Data Analysis | SQL
  – Wrote 15+ advanced SQL queries using joins, subqueries, CTEs, and window functions to analyze a music store database.
  – Identified top customers, most popular genres by country, and high-performing artists to derive business insights.

Comparative Analysis Dashboard (Power Bi)
  – Built a dynamic Power BI dashboard for comparative analysis of budget variance and YoY growth.
  – Used DAX, data modeling, and tooltips to deliver actionable insights and improve user experience.

Car Sales Dashboard | Power BI | Excel | SQL
  – Developed an interactive dashboard to analyze car sales by region and model.
  – Built DAX measures and KPIs to monitor revenue trends, inventory, and top-selling categories.

Education

Sanjay Ghodawat University   **Jun 2021 – Jun 2025**
B.Tech in Computer Science, CGPA: 8.0/10   Kolhapur, India
M R Junior College   **March 2021**
Higher Secondary (HSC), 88.67%   Kolhapur, India
Halkarni High. Halkarni   **March 2019**
Secondary (SSC), 84.20%   Kolhapur, India

Skills & Certifications

Languages: Python, SQL ,C
Data Analytics : Data Analysis, Data Cleaning, Data Modeling, Data Visualization, OOPs, Statistics
Tools & Libraries: Power BI, Excel, GitHub, Jupyter Notebook, VS Code, Pandas, NumPy, Matplotlib, Seaborn
Certifications: Accenture Data Analytics and Visualization Job Simulation, SQL for Data Analysis | Udemy
